No 93.

FIRING HEARD

Sound of Cannonading Heard at Dalny

LIGHT SKIRMISHES CONTINUE

Togo Believed to be Again Attacking Port Arthur, as Sounds of Heavy Firing Were Heard at Dalny.

Japanese Fleet Sighted

Berlin, April 19.—The Lokal Anzeiger learns that Alexieff, the Russian High Admiral of the Far East, has ordered the erection of 23 immense military depots, and 23 field hospitals, capable of accommodating 20,000 wounded, between Mukden and Harbin.

Tokio, April 19.—Reinforcements for the Russian infantry, artillery and cavalry on the Yalu river, have recently arrived, and the defences of Harbin have been greatly strengthened.

It is expected a great battle will soon be fought in the neighborhood of Hushan. No material reinforcements have arrived at Vladivostok since the opening of the war. The garrison there is estimated to number seven thousand men of all arms. The four Russian warships are still there.

St. Petersburg, April 19.—Two Japanese officers were caught spying along the line of the Siberian railway and were captured and hanged at Harbin. One of them claimed to be a prince of the Imperial family of Japan.

Liao Yang, April 19.—A number of unimportant skirmishes are reported along the Yalu river.

Six Japanese soldiers were killed by Russian scouts on April 16.

Firing was heard on April 18th, but the result of the engagement is unknown.

Headed for Port Arthur

Shanghai, April 19th.—Four Japanese warships and troopships passed Chefoo last night.

They appeared to be bound towards Port Arthur or the Gulf of Liao Tung.

Lining the River With Forts

Tokio, April 18th.—It is reported from Wiju that 20,000 Russian troops are between New Chwang and Wiju on the Yalu river.

They were engaged yesterday in erecting fortifications at all important points on their line of defence.

Sighted Togo's Fleet

Chefoo, April 18th.—It is probable that Admiral Togo is again attacking Port Arthur.

A mail steamer from Shan Hai Kwan at 6 o'clock this evening reports that all of the Japanese battleships and heavy cruiser division were sighted 50 miles southeast of Liao Tien Shan promontory, at 11 o'clock this morning.

Firing Yesterday Near Port Arthur

New Chwang, April 19.—At eight o'clock tonight a report comes from Dalny that firing has begun off Port Arthur, and it is believed that Admiral Togo has begun another attack. No word has come from the fortress except a denial of the story this morning that Admiral Makaroff's body had been found.

Searchlights were observed late last night in the Gulf, fifteen miles south of Mokuwa, but no Japanese ships were seen today.

Viceroy Alexieff desires to give up his position. Jealousy of Admiral Skiridloff and loss of the confidence of the St. Petersburg government are the alleged causes.

Unimportant skirmishes continue along the Yalu river.

Vladivostok is in danger of famine. Four Russian warships are still at that port.

The Russians are constructing field hospitals to accommodate 20,000 wounded between Mukden and Harbin.

Confirmation is at hand of the Japanese complete control of the Korean government.

BRITISH COLONISTS SATISFIED

(Special to the Bulletin—The First Press Message from the British Colony).

Lloydminster, April 19.—Today is a rather memorable one to most of the colony. It is just a year since we arrived at Saskatoon, and it will be a few years yet before some will forget their first days with ox-trains on the march to Lloydminster. Then again, the telegraph office was opened today and as we now can do business with the outside world, we feel as though our friends were near at hand because we can catch them by wire in a short time.

The town of Lloydminster is named after the Rev. Geo. Lloyd, chaplain of the C. C. S. of England. Mr. Lloyd has proved himself to be a very great help to the district, not only in his work as a clergyman, but as a citizen. He is always ready and willing to help along anything that is for the good of the district and his work is being felt in all directions.

The town was not started till last November, when there was but one building where there are now one hundred, and though the winter has been severe, it has not deterred these people from steadily plugging along and making things as comfortable as possible. There are two as fine general stores as you would expect to find in any new country—Miller Bros. and Hall, Scott & Co. Both these firms have had buyers in the East for several weeks and they are prepared to supply colonists with whatever they may need. Dr. W. A. Ames is the resident physician, and C. Spurgeon Astene, chemist for Miller's pharmacy. There are three restaurants, harness shops and machine agencies, represented by Miller Bros. and Johns & Thompson; two blacksmiths, three building contractors, two butchers, a barber, a baker and three liveries, and the indications are that the next six months will be far in advance of the present. The Dominion Government Immigration Department have erected a fine immigration hall, which is now ready for occupation. Their agent, Mr. W. R. Ridington, is in charge. The government are contemplating an office for having such an energetic and painstaking official.

Now that the harvest is expected, that most of the settlers will come by Edmonton, thus saving the two weeks of hard driving over that dreary road from Saskatoon. There will be erected at Fort Pitt a large market to accommodate settlers until they can gather their things together to start for here. The distance from the new landing to this place is about eighteen miles. Settling has just started, and although some arrived here rather late last year, yet it is pleasing to report that some of them have quite a few acres ready to crop. The weather this spring has been rather backward and a few snow banks can be seen here and there toward the north, but now that the weather is brighter and people can get out to work they are quite satisfied that our Canadian winters are painted far worse than they really are, and all of them are of one mind that it was a good day's work for them when they left the cheap labor market of the Old Country for Canada.

Raincoats

That are Something
more than Waterproof

We don't mean the ill smelling, ill fitting, use-on-a-rainy-day affair, usually shown under that name. Ours are handsome, beautifully tailored garments of lovely all wool tweeds and cover-cloths, which you would never suspect of being waterproof. They give one that well-dressed feeling any day, rain or shine. And you'll like our prices too.

Umbrellas and Parasols

Our new stock is right, as right as anything can be. Great variety and splendid values.

Any price from 75c. to \$3.50

We can suit you.

REVILLON FRERES

Edmonton's Greatest Departmental Store

NOTES OF THE MONTH

Continued from Page 2.

Waverly I have not got a glimpse of so far and it is a week or so too soon for the larger matrons, such as the swans and pelicans. In fact this later variety seldom show up before the middle of May and I have seen them passing over as late as the second week in June.

Of the butterflies I saw the first Camberwell Beauty on the 11th. He is always the first of the Alberta Lepidoptera to appear, his brown, velvety wings edged with cream color, being familiar objects in every field and wood of the countryside. Unlike the various other species which appear at a certain time, stay but a short week or so and are seen no more till the following year; this variety is with us from spring till fall; and though so plentiful here, being the most common of our northern butterflies, in Great Britain he is quite a rarity and a great prize to the lucky collector who shall achieve his capture.

The far-bearing animals with the exception of Frun, are out and about. He is just beginning to rub his little piglike eyes and yawn, turned over and finally, after spending a week or so striving to get up, he is now about to start the last week of April to board the merry trapper and his dead-falls. Of the smaller fry, the chipmunk is generally a week or so ahead of the Ground squirrel and the Striped gopher. I saw him for the first time this spring on the 12th; he did not seem to be in a particularly good humor as he sat on the woodpile and dozed, perhaps he got out the wrong side after his long slumber.

The ermine like species at the fast disappearing snow and has begun to revert to the weasel state, his white coat being already flecked with the more sombre colors of his summer garb. When the sun gets a little stronger the groundhog will be making his appearance about a half hour or half chattering defiance as he rises from his home in the windfall.

McSTRUAN.

MAY ENLARGE THEIR PREMISES

A rumor was current on the street yesterday that the firm of Reville Bros. had purchased the Halmic block on their two corner Jasper and also the property lying south of their hardware store on 1st street.

The Bulletin has made enquiries as to whether the rumor was true and has been told that no purchase has been made yet, negotiations toward that end have been under way for some time and the last mentioned property may change hands in the near future. In the event of securing this property the present buildings would be removed and another block be erected thereon of the same size as their present hardware store. The would make a block fronting on Second street 100 by 150 feet.

The present Second street building which was completed not long since, is a solid brick structure 50 by 150 feet, three stories in height with a basement the entire size of the block. The front of the ground floor, the full width of the building and for a depth of over 20 feet, is occupied as a hardware store, the largest, it is said, west of Winnipeg. Six salesmen are required for this department. The office of the hardware manager, Mr. T. M. Grindley, is also on this floor. The rear of the flat is used as a receiving and packing room where five men are engaged opening, checking and assigning goods to their proper departments. To facilitate handling goods an elevator runs from the basement to the upper floor.

The second floor of the block is given up to the wholesale grocery department where a large reserve stock of all kinds of groceries is kept in readiness, the jobbing trade being also attended to on this floor. Four men are employed in this department.

The general offices of the company are located on this floor.

On the upper floor is the wholesale dry goods department, four men being employed in this branch.

Down in the basement the tin shop is located and the reserve hardware stock is stored.

The building is heated throughout by steam supplied by a 50 horse power boiler, which is a private telephone exchange and the different departments of the store.

THE BRITISH COLONIST

Dr. Wade is in receipt of the following message:-

Lloydminster, April 18, 1904.

Dr. Wade,

Cannot guarantee numbers. Smaller parties will be arriving by each ship. We are supporting the river route. Were arranging for transportation here, but if you will guarantee reasonable rates, passengers and baggage, will leave transportation you.

Rev. G. E. Evans Lloyd,

TOWN COUNCIL

The town council met in special session last evening in the council chamber to meet Messrs. Inglis and Mer-shon of the Street Railway Company and consider the route for the first line of the street railway.

Mayor Short presided and Councillors May Ross, Fraser, Cushing and Picard were present.

Mayor Short briefly outlined the purpose of the meeting and asked Mr. Inglis to address the council. Mr. Inglis said his intention was rather to talk over with the council the proposed route and also to bring up some questions, such as the location of the tracks on the streets, the fixing of grades, etc., which would naturally occur at each stage of the work and which might be settled once for all and be out of the road.

The line which the company desired to lay down first began at 12th street on Nanyo avenue, proceeded down Nanyo avenue to Jasper avenue, along Jasper for the two miles demanded by the agreement, and a line running north from Jasper avenue on First street to Isabella street, thence east to Nanyo avenue. This would place the lines in connection with the C.N.R. station and the schools, churches, etc. It was the intention of the company to begin construction by June 1st and to have this line and also a line to St. Albert in operation by the coming fall. A warehouse would be erected near the C.N.R. tracks for the freight business of the St. Albert line. It was also their intention to build spur lines to the General Hospital and to the exhibition grounds as soon as possible though it was doubtful if this could be done this season. The company, he said, were negotiating for a site in the center of the city and for a site for their car barns. It was very probable that their headquarters would be established in the rear of the present club building and the street frontage of the property. He also proposed to make the line in Jasper avenue a double track.

The question of the space to be left between the tracks on Jasper avenue for works for repairs to the sewers and waterworks systems came up and it was decided that a space of seven feet between the tracks would be sufficient for these purposes.

The company were anxious to have the town establish a permanent grade on the streets on which they proposed to run, in order that the line might be laid down with reference to a grade and as little change, as possible be necessary when the time came for paving the streets. The city engineer was instructed to take the levels of the streets and fix stakes indicating the grades, the council to discuss the matter at a subsequent regular meeting and pass a formal resolution as to the grade.

Councillor Cushing enquired as to the company making connection with the C.N.R. lines in order to handle eight cars according to the agreement. Mr. Inglis said it would be possible to handle eight cars if the company to secure permission to do this, then in Winnipeg he had been assured that the C.N.R. would extend the line up the hill during the present season.

After further discussion it was decided to have the town engineer report on the matter of permanent grades, the location of tracks and to communicate with Mr. Chipman regarding the advisability of laying sewers and water mains in future on the sides of the streets in order to interfere with the work on the street railway lines. This report will be submitted at the next regular meeting of the council and passed on in order that the company may begin operations as soon as possible. Mr. Campbell, manager of the Downing mills, addressed the council regarding the location of a spur line from the C.N.R., which they wish to construct along Hardisty avenue. The matter was left with the town engineer.

Dr. C. H. Stuart Wade, J.P., F.R.S., immigration commissioner, was reported to the council the probable rates for the transportation of settlers and baggage to the British colony. He was informed that the council could assume no responsibility for transportation and that their duties were merely to see that provision was made for their accommodation while here, and that they were not imposed on in any way transportation was a matter for private activity, not for the town.

G. Sutter, immigration agent, laid before the council the following letter, which he had received from the Commissioner of Immigration:-

Winnipeg, April 15, 1904.

W. Sutter,

Edmonton.

Dear Sir:- To the great astonishment of one of our agents, a man named J. C. Johnson has been proposed to have written letters to some of the railway companies in the States, saying that he is willing to furnish names of some hundreds of German and other farmers in your district who desire to return to their native States, and making the most extravagant and false reports concerning your district. J. C. Johnson has his address as Post Office Box 5, Edmonton, and I think it would be advisable to take up this matter with the Mayor and the Board of

Trade and see what Mr. Johnson means by sending such correspondence. Further than that, it would be advisable to extract from him the names and addresses of the persons to whom he has written such statements. Please go into this matter at once and report at your earliest convenience.

Yours Truly,
J. Obed Smith.

Mr. Sutter said he had investigated the matter and found that the writer was Mr. Johnson of the Critères restaurant. He had enquired as to who the disinterested parties were, but had received no satisfaction. The matter was referred to the town engineer to take prompt action.

A request from the secretary of the Board of Trade for a six-foot sidewalk from the foot of Third street to the exhibition grounds, was left over to the next regular meeting.

The town engineer was instructed to procure quotations for sewer supplies to be submitted to the next meeting.

A discussion arose as to civil employees and the town engineer was asked to report regarding the same.

HORSE HILLS

(Bulletin Correspondence.)

Mr. "The winter is dead and joyous spring has been born. That auspicious event unfortunately reveals the deplorable state of the roads, especially that of the trail between Edmonton and Fort Saskatchewan.

To be brief: There are two aprons in particular on this road that have come to the writer's personal notice; the one a location on that part of the road in Belmont which lies near Mr. Mitchell's property and consists of a well made culvert sunk by the action of the weather about two feet below the surface, thereby constituting a formidable ditch difficult to negotiate by teams or the general traffic.

The other is a culvert (or rather the remnants of one) between the half-way house and Mr. Chabot's gate, and is particularly deadly on a dark night.

There are, of course, other spots along the highway of an equally dangerous nature, but with these the writer is not personally acquainted, and therefore must leave it to others more qualified to point out their special defects.

The present writer is very well aware of the difficulties of repairing such defects on a much travelled road; he is, however, the necessity for the legislative representative of the constituency to press insistently upon the authorities the absolute urgency, that so largely travelled a road as the Fort Saskatchewan trail should be kept in an almost perfect condition, so that it may fulfill its only object of expediting the huge volume of traffic that rolls contentedly over its way.

Trusting to it by means of your valuable publication an early and adequate attention will be paid to remedy the defects of this road, I remain,

Yours Truly,
F. S.

DEBATE CONTINUED

NO VOTE TAKEN YET

The C.N.E. Will Grade to Edmonton During the Present Season

(Bulletin Special Dispatch).

Ottawa, April 25.—The G. T. P. debate continued in the House today. The vote may be taken Thursday.

New developments in railway prospects for the West include twenty-five miles of new road east from both Wetaskiwin and Lacombe, as stated by Mr. Drinkwater of the Canadian Pacific.

President Mackenzie says the C. N. R. will be graded to Edmonton during the coming summer and the rails will be laid early the following summer to Edmonton.

A severe snow storm occurred today in Ottawa. The weather is cold tonight.

ICE JAM ON ATHABASCA

The Waters Rising Rapidly and Great Damage Is Feared

A messenger arrived in town today bringing word to the Hudson's Bay Company that the water in the Athabasca river is rising rapidly, and grave fears are entertained for the safety of the warehouses and other buildings there.

Mr. Leslie Wood, who is in charge of the B. P. post there, wrote that the water had risen above the flat and was several feet deep in the warehouses.

As the residences, stopping places, and other buildings of the town are on the same level, it is presumed they are in equal peril. Wood's sawmill was upset by the water, and will probably be carried down stream and lost.

Cornwall's steamboat was on a lower level and in all probability has gone down stream.

Ross Bros.' warehouse is on the same flat as the Hudson's Bay warehouse, but is thought to be sheltered somewhat by other buildings.

McDonald and Secord's warehouse is some distance up the river and is considered comparatively safe, being on higher ground.

The flat boats for transporting the season's supplies down to the northern trading posts, which were being contrabanded on the lower levels along the river, would be in danger. It is among the first articles carried away by the water.

The flood was caused by an ice jam some distance below the village. A week since the ice was reported to be still strong and would appear that the warm weather has caused the water to surge and sweep down the ice in great sheets, forming a dam across the channel, which forced the water over the flat on which the village is situated.

Mr. Woods feared that when the ice gave way the additional current given the water would carry away everything within reach.

Mr. Livock, factor of the Hudson's Bay Company here, when spoken to regarding the matter, said he feared that the warehouses were all gone by this time. The losses, he said, would in this case be enormous, and the event the greatest calamity in the history of the district.

Besides the grumbling village which has sprung up at the Landing, all the leading firms in Edmonton who carry on a trading business in the north have large warehouses there where during the winter the supplies for the summer's trade are stored waiting the opening of navigation. Should these be swept away the losses may result in a tragedy for the northern country is dependent for sustenance on these supplies.

NEWS OF THE WORLD

Winnipeg, April 19th.

Serious labor troubles are feared in Montreal.

The anti-Chinese legislation of British Columbia has been declared ultra vires.

Two hundred C. N. R. town sites have been purchased by Col. Davidson and associates for \$1,000,000.

The train upon which the King and Queen were travelling was derailed. Their Majesties escaped injuries.

The Liverpool Chamber of Commerce will press the British government to remove the Canadian cattle embargo.

The amendments to the Militia Act were introduced in the House of Commons. They are comprehensive in their scope.

Startling statistics recognizing the fertility of the Canadian West, are published in the London Commercial Times from American sources.

The increased poll tax does not appear to deter Chinese immigration. Our hundred and fourteen Chinamen have just paid \$57,000 into the treasury at Vancouver.

Winnipeg, April 26th.

Eleven hundred immigrants left Montreal for the West yesterday.

Vancouverites are enthusiastic in favor of the proposed Island railway.

The waters of the Red and Assiniboine rivers are nearing the danger line.

Eight passengers were killed and thirty injured in a railway wreck in Mexico.

Several members of the St. Paul club have been accused for the Winnipeg Maroons.

The Montreal strike situation remains unchanged. The employers are determined not to submit.

Proposals for the Dominion Exhibition are being pushed. Work on grounds has commenced.

Mr. Frick, brother of the C. P. R. president, has been named as the chief of the proposed Island railway.

Five miles out in the heart of the cotton-wool district at eight thirty last night and at an early hour the next morning the value of \$250,000 in cotton was destroyed. The fire protection system proved inadequate.

Temporary Quarters—

Opposite Post Office.

LOCAL.

—The town water cart made its first appearance for the season yesterday.

—Mr. Bokker, formerly of Vancouver, is in town looking up a location to start a candy factory.

—The Sisters of the Edmonton General Hospital gratefully acknowledge a donation of \$35, the proceeds of St. Patrick's concert.

—Chief of Police Dean returned last night from Calgary, bringing Mayor Currie, wanted here for contempt of court. Currie paid his fine last night and was released.

—A football practice will be held on the Hudson's Bay grounds to-night, followed by an organization meeting to be held in the Edmonton Clothing Co.'s store.

—There was a small turn-out at the sacrosanct practice on Monday evening and the proposed organization meeting was not held.

—The Operatic Society gave the Climes of Normandy to a crowded house in Robertson Hall last night.

—The performance was fairly as good as on previous occasions and the frequent applause of the audience bespoke their appreciation.

—A Fisher has sold his interest in the Edmonton Brewing and Malting Company, Limited, to W. H. Shepherd, of Strathcona.

—The former intends returning to Greenwood, B.C., to look after his interests there.

—Drops: The temperature in the Territories yesterday was again nearly 80 and in Manitoba, 40. The present outlook is not unduly optimistic. Very pronounced changes are likely. Local rains are probable in some districts.

—Frank Kitto, of the Bulletin, was released last night from the Public House, where he spent the last month with a severe attack of pleurisy. He is making rapid progress toward complete recovery but will be unable to re-enter the office for some time.

—H. Secord, M.E.A., wired the Commissioner of Public Works at Regina yesterday regarding the condition of the bridges over Rat Creek.

No reply has been received as yet. In the meantime the town will await the approach to the bridge on Namayo avenue forthwith.

—A resident of the west end complains to the Bulletin that Jack with 22 and 32 rifles are firing within the corporation limits.

—The corporation is advised that the youngsters and their parents be warned that this is in violation of the law and liable to cause trouble for the offenders.

—There was an unusual type of visitor at the police station yesterday when a member of the Mounted Police brought in a flaxen-haired little five-year-old found wandering about the immigrant hall.

Many but little were the efforts to discover the name and place of residence of the little to suit an anxious mother appeared and settled the matter.

—Assessor Cooper reports another variety of trouble added to his burdens. A gentleman accused for some time in the west end said he had sold them.

He could not give the name of the purchaser and on further enquiry all he could tell about the matter was that they had been bought by a red headed woman.

The assessor considers the clue for identifying the owner as rather indefinite.

—The motion to adjourn last night's council meeting was lost in a tangle of disconnected but very vigorous remarks which floated up from the police seats down below.

A knowing and amiable played around the usually sedate aldermanic board and "another boarder" trembled on the air.

On investigation the language was found to be the product of a highly excited Oriental when the police had gathered in for safe keeping. John had been celebrating some holiday, or the news of Zogo's success during the evening and at the time wore on his head a condition of recklessness and vociferous hilarity.

It took him time to get the cop appeared and took him under the wing of the aldermanic board. John has the distinction of being the first Chinaman ever run for being exuberant but he didn't seem proud of the honor.

On the contrary he seemed to disavow with the whole police arrangements of this he-nighted land and the things he said to the police and everybody else through the bars would tangle up a phonograph.

The climax of his protestations came when the officers relieved him of his possessions, a few coins, a meerschaum pipe and a fairly good supply of "beach" correctors. All police looked alike to him and from his remarks it appeared that he had had experience with the appropriating qualities of the officers in his own country and had not forgotten the matter. He came up this morning for his first dose of foreign justice but denied his guilt and was remanded until this evening.

PERSONAL.

W. Meitland, of Star, was in town yesterday.

H. Wilson came up yesterday from the Fort.

Judge Scott returned on Monday from Regina.
